

Participant Survey

Date: _____

Name: _____

Thank you for participating in the Creating Healthy Neighborhoods Training Program. We request that you complete this survey so that we can get more information about your interests and knowledge of community land use.

What is environmental racism?

- ☐ It is the placement of low-income or communities of color in proximity of environmentally hazardous or degraded environments, such as toxic waste, pollution and urban decay.
- ☐ It is the separation of urban areas and green areas.
- ☐ It is the discrimination against trees, green areas, animals and plants.

What is Zoning?

- ☐ It is an area where you can park.
- ☐ It determines where industrial, commercial and residential areas will be located in a community.
- ☐ It is an area where you can only drive at slow speeds.

What is a Community Survey?

- ☐ It is a customer satisfaction survey
- ☐ It is a method for collecting and documenting the needs and priorities of the community
- ☐ It is a measurement of community property developed by an engineer.

What is Policy advocacy?

- ☐ It is an advocate who writes laws for the community.
- ☐ It is an office where you can contact local politicians and their staff.
- ☐ It is a process of influencing policy makers to take action to improve conditions like protecting public health and the environment.

What is the PSA Method?

- ☐ It is a male or female role model.
- ☐ Problem, Solution, Action Method is an EHC framework that allows community members address issues of social and environmental justice.
- ☐ It is an educational commercial.

What is Discriminatory Land Use?

- ☐ It is where politicians determine how much land the city will use for libraries.
- ☐ It is where cities discriminate against the use of playground for children.
- ☐ It is where cities and other local government entities implement land use ordinances and regulations, such as zoning, that do not conform to accepted standards and result in unhealthy conditions for residents of low-income communities of color.

What is Land Use Planning?

- ☐ It is when city planners and engineers develop a plan to distribute city land to corporations, business leaders, and their families.
- ☐ It is a community driven process that builds community power to ensure the development of healthy neighborhoods, maintaining and creating affordable housing, preserving community character and culture, and promoting a sustainable community.
- ☐ It is when the city approves a permit for developer to build a new building in the community.
